ADHESIVES

GLUMA BOND5 BOTTLE

Based on our long-term bonding expertise, we developed the 5th generation etch & rinse one-bottle adhesive GLUMA Bond5. Produced to meet your everyday requirements for uncomplicated bonding, it exhibits excellent shear bond strength and ensures successful long-term restorations. GLUMA Bond5 produces excellent adhesion to the enamel and the dentine, as well as an optimal marginal sealing.

GLUMA 2BOND BOTTLE

Based on our long-term bonding expertise, we developed the Etch & Rinse adhesive system GLUMA 2Bond. It meets your everyday requirements for uncomplicated and state-of-the-art bonding. GLUMA 2Bond produces excellent adhesion to the enamel and the dentine, as well as an optimal marginal sealing. Furthermore it provides a desensitizing effect for sensitive patients or desensitization of hypersensitive areas.

GLUMA UNIVERSAL

Based on our long-term bonding expertise, we developed GLUMA Bond Universal – a universal bonding answering to all your bonding needs. It is a reliable and highly effective adhesive that ensures successful long-term restorations.

GLUMA DESENSITIZER

For over 20 years, one drop of GLUMA has been sufficient to reduce and prevent hypersensitivity. The results appear quickly and effectively, without mixing, curing or multiple applications.

COMPOSITE

CHARISMA SMART

SHADES : A1-A2-A3-A3.5-B1-B2-DENTINE

Syringe and kits

Charisma Smart provides the smart way towards natural everyday restorations. It is an uncomplicated universal composite for everyday restorations with great value. We developed this light-curing, radiopaque filling material to cover your requirements for composite workability.

CHARISMA CLASSIC

SHADES : A1-A2-A3-A3.5--A4
-B1-B2-B3-C2-OA2-OA3-OA3.5

Syringe and kits

Charisma Classic is the very first composite to offer the second generation of Microglass filler technology. We developed this new and enhanced technology in close cooperation with practitioners worldwide to meet your requirements for composite workability and natural brilliance. Single-shade layering techniques have never been this easy.

CHARISMA TOPAZ

SHADES : A1-A2-A3-A3.5-A4
-B1-B2-B3-C2-OL-OM-OD-CL
-CO-BL-OB

Syringe and kits

The Charisma brand is trusted all over the world for its easy handling, high quality and reliability in restorations. That is why incorporating the most successful features of Charisma composites in one product just seemed logical to us. The result is Charisma Topaz, a light-curing, radiopaque nano-hybrid composite based on the patented TCD-matrix. This innovative formula combined with the approved easy Charisma handling works as the foundation for down-to-earth restorations of natural beauty.

CHARISMA DIAMOND

SHADES : A1-A2-A3-A3.5-A4-B1-
B2-B3-C2-C3-D3-OL-OM-OD-CL-
AM-CO-YO-BL-BXL-OB

Syringe and kits

The nano-hybrid composite Charisma Diamond expands the boundaries of aesthetics, quality and performance. Thanks to the innovative formula it provides all the exceptional properties you expect from such an aesthetic state-of-the-art composite.

CHARISMA ONE

The new ONE Shade is ideal for basic posterior restorations, small or large, and not extended buccally into the visible zone. In contrast, for more complex and aesthetically challenging cases in the anterior or if masking of discolourations is needed, we recommend our existing shade range for all the details.

CHARISMA DIAMOND ONE

CHARISMA TOPAZ ONE

CHARISMA FLOW

SHADES : A1-A2-A3-A3.5-
B2-B3-OA2-OA4-BASELINER
Syringe only

Charisma Flow is the ideal flowable supplement to our microhybrid composite Charisma Classic. Its low viscosity and good thixotropy makes it the ideal choice for many indications like cavity lining, fissure sealing and minimal invasive fillings.

Charisma® Opal Flow

Charisma Opal Flow is the ideal completion of the Charisma-brand. Because of its very good controllable viscosity the minimal invasive tasks will be even more uncomplicated. Charisma Opal Flow stands for diagnosis-safe radiopacity and easy handling. With this addition to either Charisma Diamond or Charisma Topaz you get everything you need for durable and safe restorations.

VENUS® COLOR

5 x 1g

Many patients do not want their teeth to be recognised as new. They want their characteristic tooth-colour after treatment. Patients do not always want "brilliant white teeth". A touch of colour is sometimes needed to restore your patient's individual appearance. We offer you Venus Colour in five different shades: White - Blue - Corn - Amber - Choco

VENUS® BULK FILL

Venus Bulk Fill is a flowable, low-shrinkage composite for creating posterior restorations with the bulk-filling technique. The material is also ideal for restorations of primary teeth. Complex, time-consuming techniques using 2 mm layers are not necessary. This helps to save time and costs on each restoration, unlike traditional, laborious layering procedures.

SIGNUM® LIQUID

Processing aid for modelling and reproducing the dispersion layer by Signum composite, matrix and Signum ceramis.

CHARISMA EASYSHINE POLISHING KIT

1 X 2 CHARISMA EASYSHINE
POLISHERS OF EACH SHAPE

It's fast and easy. It needs only one step.
It's what you need to finish your composite restorations with perfect polishing results. Come and meet the new member to the Charisma family: Charisma EasyShine polishers. **3**

TRANSLUX WAVE

TRANSLUX WAVE

It is developed to consistently produce high-quality fillings with an optimum polymerisation depth in the 440 – 480 nm wavelength range.

PREVISION® TEMP

PREVISION® TEMP

CARTRIDGE REFILL

SHADES: A1, A2 , Bleach

PreVISION Temp is a self-curing two-component temporary crown and bridge material, provided in the practical 10:1 automix cartridge. Its good mechanical properties allow for safe and aesthetically convincing results for a comfortable wearing time. So you and your patient can envision a representation of how the final restoration will look and feel.

A-SILICONE

Variotime is the first choice when it comes to easy and precise impression taking. Variotime is a VPS (Vinylpolysiloxane) precision impression material system for all types of impression techniques and a wide range of indications, guaranteeing excellent results. It stands out from other A-Silicones due to its flexible time concept and unites the advantages of fast set and regular set materials in one material. Due to the flexible working time, Variotime adapts to the individual working style of the dentist and enables easy, stress-free and safe impression taking. New flow materials (Medium and Extra Light Flow) feature state-of-the-art physical properties, especially with regards to hydrophilicity, toughness and flowability.

DYNAMIX SPEED

When it comes to high-speed mixing, time-saving and simultaneously obtaining a consistent, void-free mixture, the decision is easily reached: Practical cartridges and the functional Dynamix speed mixer are perfectly matched in this well thought-out system featuring all the advantages of automatic mixing for impression materials.

VARIOTIME DYNAMIX

HEAVY TRAY REFILL

2 X 380 ML

VARIOTIME DYNAMIX

MONOPHASE REFILL

2 X 380 ML

VARIOTIME DYNAMIX

PUTTY REFILL

2 X 380 ML

EASY PUTTY REFILL

1 X 600 ML

LIGHT FLOW REFILL

2 X 50 ML

MONOPHASE REFILL

2 X 50 ML

EXTRA LIGHT FLOW REFILL

2 X 50 ML

HEAVY TRAY REFILL

2 X 50 ML

VARIOTIME BITE CARTRIDGE

2 X 50 ML

MEDIUM FLOW REFILL

2 X 50 ML

MEMOSIL 2

3 X (2 X 50 ML MEMOSIL 2,
1 X 12 MIXING TIPS GREEN)

MEMOSIL 2 is a transparent A-silicone for special indications. Its transparency allows optical control when positioning aids (e.g. X-ray pellets). Light-curing is possible for filling and fixative materials through placeholders with MEMOSIL 2.

C-SILICONE Oxasil®

oxasil Soft Putty

1 x 900 ml Tin (= ca. 1 kg)

oxasil Putty

1 x 900 ml Tin (ca. 1.38 kg)

oxasil Light Flow

1 x 140 ml Tubes,
incl. 2 Mixing Pads per 4 Tubes

oxasil Very Light Flow

1 x 140 ml Tubes,
incl. 2 Mixing Pads per 4 Tubes

oxasil Mucosa

1 x 140 ml Tubes,
1 x 2 Mixing Pads per 4 Tubes

oxasil Activator Paste

1 x 60 ml Paste (Tube)

PROSTHETICS EQUIPMENT

INTRAORAL TIP WHITE

MIXING TIP YELLOW
(4:1)

BITE REGISTRATION TIP

MIXING TIP GREEN
(1:1)

IMPRESSION JET

IMPRESSION JET TIPS

INTRAORAL TIP YELLOW

DISPENSING GUN
(4:1/2:1/1:1)

MIXING TIP YELLOW
(1:1)

UNIVERSAL MIXING PAD

MIXING TIP BLUE
