BMS X-ray Endoray HF (Mobile – Wall-mounted)

- Lightweight and compact
- Low radiation dose
- High definition images in both the traditional mode or digital sensors
- Remotely control
- Focal point 0.4mm
- Diameter of long cone at the end of the spacer: ≤6cm

STERIL Maximum 23-18 L

- B-Class Autoclave
- Built-in Vaporizer
- 10 different sterilization cycles and 2 test cycles+ Night cycle
- Built-in printer
- Electrical door lock
- Internal connections for water purification system

BMS White %38 (Germany)

- %38 Hydrogen Peroxide whitening gel
- Up to 8 shades whiter in just 30 minutes!

QUARK ST

- Straight handpiece, transmission ratio 1:1

THALIA

- Economic Ball-bearing turbine with simple and ergonomic design
- Extremely High Torque
- One spray, Push button
- Speed: 355,000 rpm

- Contra angle handpiece, transmission ratio 1:1

Ultrasonic SCALERS TITANUS-E

- Ultrasonic for built-in application.
- Consists of: - TITANUS -E piezo-electric hand piece (complete with three inserts)
- DYNO dynamometric wrench
- USC60 electronic control board
- Silicone hose (available in grey or brown color)
- Titanium transducer produces high reliability
- Generated mechanical vibrations are absolutely linear and longitudinal.
- The sophisticated electronic control board allows to automatically adjust operating frequency of scaler vibrations to the real resonance load.

VORTICE

- Pneumatic micromotor with speed and direction of rotation adjustable by means of the rotating ring.
- Torque up to 2.7 Ncm, keeps extremely high in all speed range.
- Micromotor is equipped with a non-return device for spray water and can be employed with any straight or contra-angle handpiece with internal spray
- Speed 20000 - 4000 rpm

Moon Evolution

- Built-in curing lamp
- 6 curing programs
- High Power LED light
- Straight or pistol position
- 8mm optical fiber (5 mm Optical fiber available on request)

C-Fill Obturation System

C-fill α-pack:

- Wireless design
- Fast heating, quick operation
- Large capacity battery, double battery charging and spare battery.
- Heat plunger has easy-lock structure, and rotate °360

C-fill β-pack:

- Wireless handpiece
- Exact temperature-control
- Thermal protector cap
- Gun needle can rotate °360, more easy to get the fill position
- Heating to °200 in just 30 s

C-Blade Gutta Cuts

- Delicate handle, and very comfortable
- Single button for operation and heating
- Non-contact recharge design
- Battery has large capacity, which is capable of 100 times use
- 4 different shape heat tips, can be sterilization under 135°C and be used for various kinds of root canal.

C-Puma Electric motor

Brushless LED

- Motor can be sterilized.
- Power: 120W
- Speed range: 2000rpm-40000rpm (100 (1:1rpm-2500-rpm (10000 (16:1rpm-200000-rpm(1:5)
- LED maximum: > 25000lux
- Torque output: 3.5N.CM
